

LONDON-BASED INTERMEDIATE LIGHTING DESIGNER

Lichtvision Design London office is seeking for an Intermediate Lighting Designer to join our growing team.

As an Intermediate Lighting Designer, you will be expected to work more independently, collaborate with Project Manager/Team Leader, support Junior Designer and interact with the external project design team. You will be working on multiple projects at the same time and will be involved on projects at various stages from start to completion.

Your skills

- 3-5 years of experience in a similar independent lighting consultancy
- BA or MA in Lighting Design or Architecture degree
- Competency and passion for 3D programmes such as Rhino, SketchUp, Revit
- High level of experience in Dialux Evo and 3D modeling integration
- Proficiency in graphic design and image editing software (Adobe Creative Suite)
- Familiar with digital sketching tools such as graphic tablets and sketching softwares (Sketchbook Pro, Adobe Fresco)
- Ability to read Architectural, Structural, Electrical drawings with minimal supervision
- Good knowledge of all construction stages
- Capability to apply applicable lighting codes, product market and controls knowledge

Your tasks & responsibilities

Support Team Leader/Project Manager as follows:

- Preparing lighting design packages - concept, schematic & detail design
- Produce layouts, calculations in Dialux Evo, refer to lighting codes and product knowledge to produce above packages with minimal supervision
- Maintaining a high level of knowledge on current technology, luminaries, controls and manufacturers
- Knowledge of 3D software such as Revit, Rhino is important to be able to import context into Dialux and read architects packages submitted in 3D
- Producing visualizations and renderings using Photoshop
- Selecting light fixtures and writing luminaire schedules
- Designing lighting details
- Coordinating internally and externally with clients and other consultants

Compensation according to ability and experience.

LICHTVISION DESIGN

At Lichtvision, we believe that exceptional design is the result of teamwork, creativity, and innovation. For over 25 years, we have been redefining how light shapes architectural spaces, working on projects of all scales across interiors, façades, and landscapes. Our multidisciplinary team of designers, architects, and engineers collaborates globally from studios in Berlin, Hong Kong, London, Shanghai, Singapore, and Barcelona.

Applicant must have the required documents to live and work in the UK. We cannot provide a visa sponsorship.

Our offerings

- Creative, friendly and international work environment
- Excellent growth potential
- Work collaborations with international architects and designers
- Central London office and hybrid working available
