

SENIOR LIGHTING DESIGNER

Join our Hong Kong team as a Senior Lighting Designer and bring your creativity & passion for light to our projects.

What you'll bring to the team

- Ideally 8+ years of relevant experience in lighting design or a related field
- BA or MA in Lighting Design, Architecture, or a related discipline
- A dynamic and creative mindset with strong design awareness, artistic capability, and the ability to visualize and communicate lighting concepts
- Proficiency in AutoCAD, Adobe Creative Suite, MS Office, and Dialux; knowledge of Revit or Rhino is a plus
- Self-motivated, highly organized, and a true team player - able to manage multiple project types and scales under tight deadlines with reliability and composure
- Excellent verbal and written communication skills in English, with the ability to coordinate effectively across our international offices

Your responsibilities

- Serve as Project Manager and/or Project Director depending on experience level
- Lead project lighting design from concept through construction documentation, including site visits, under the guidance of the Design Director or Managing Director
- Coordinate Lichtvision project teams and collaborate closely with external partners – architects, engineers, and clients – both locally and internationally
- Manage organizational processes, project planning, and information flow for project controlling
- Contribute to business development, including new client acquisition and maintaining client relationships
- Flexibility to travel within the region and internationally

What we offer

- A creative, friendly, and international work environment
- Excellent career growth potential and the opportunity to shape the continued development of our Asian studios
- A well-established global office structure with close inter-office collaboration
- Exciting projects with renowned international architects and designers
- A bright, spacious studio in Sheung Wan with panoramic views and just a 5-minute walk from the MTR
- Flexible working arrangements and the option to work from home

LICHTVISION DESIGN

Light is omnipresent – it defines space, sets the mood, and adds value.

Lichtvision Design is an internationally renowned and award-winning lighting design practice with studios in Berlin, Hong Kong, London and Shanghai. For over 25 years, our multidisciplinary team of designers, architects, and engineers has redefined how light shapes architecture across interiors, façades, and landscapes. We believe exceptional design emerges from teamwork, creativity and innovation.

Ready to join our energetic team? Show us your passion for lighting and make an impact on our projects.

We'd love to hear from you!
