

BIM, 3D & Computational Design Technologist (m/f/d)

To strengthen our Berlin team, we are looking for an experienced and solution-oriented BIM, 3D and Computational Design Technologist with strong digital skills, technical rigour and a passion for innovation.

What you should bring

- Strong technical background with experience on demanding BIM-based projects
- Advanced skills in Revit and confident 3D modelling capabilities (e.g. Rhino)
- Interest in computational/parametric design and environmental analysis (e.g. Grasshopper, Climate Studio)
- Experience producing high-quality visualizations and renderings using common industry tools
- Curiosity for emerging digital design tools, including AI-supported workflows
- Structured, precise and solution-oriented working style with confidence across technical and design tasks
- Solid German and English skills, written and spoken

Your responsibilities

- BIM modelling and support BIM-based project delivery in Revit
- Develop, refine, and manage 3D models across various platforms and throughout different project stages
- Carry out and document daylight and artificial lighting simulations
- Produce high-quality visualizations to communicate design intent
- Prepare CAD documentation, including reflected ceiling plans, sections, and detailed drawings
- Contribute to the development and application of new digital workflows, including AI-assisted tools, where they improve quality, efficiency, or communication

What we offer

- A welcoming, international studio culture that values professionalism, collaboration, and new ideas
- Ambitious, design-driven projects at the intersection of architecture, art, and technology - in Germany and internationally
- A centrally located Berlin studio with flexible working models
- Ongoing learning and development through in-house training, individual growth opportunities, and the chance to help shape new digital workflows within the studio
- A supportive, professional team culture with regular events
- A competitive salary package aligned with experience and qualifications

LICHTVISION DESIGN

Light is everywhere. It shapes spaces, values, and atmospheres.

Lichtvision is an international, award-winning lighting design studio with offices in Berlin, Hong Kong, London, and Shanghai.

In **Berlin**, a team of 20+ experts across lighting design, architecture, and media experiences delivers unique media and lighting productions—from iconic media façades and interactive light installations to dynamic, immersive environments. We're excited to meet people who share our passion for light and design—and want to grow with us.

Please send your CV, portfolio, and salary expectations to job@lichtvision.com and include **LVD-BER BIM26** in the subject line.
